—Three Members Are Re-Elected.

ON STILL HUNT FOR MURDERER

No Results Thus Far From "Sweating" suspects—Opie Read Lectures—Movement for Better Rates.

Ogden, Dec. 3.—Board of education: First Ward—Hyrum Pingree (R). Second Ward—W. H. Williams (D). Third Ward—Asael Farr (D). Fourth Ward—Dr. C. E. Coulter (R). Fifth Ward—M. S. Browning (D). One of the largest votes ever cast at a school election in this city was that which was polled yesterday when a new board of education was elected. From the time the polls were opened until they closed carriages and automobiles were kept busy carrying the voters to the polls.

The greatest interest was centered in the Fourth ward where 1,998 votes were cast and the race was between H. W. Williams, Democrat, and Dr. C. E. Coulter, Republican. The latter was elected by a vote of 755 to 327. On the board elected there are three members of the present board re-elected and are as follows: W. H. Williams, Asael Farr and M. S. Browning. The new board will be composed of three Democrats and two Republicans. The vote was as follows:

First Ward—Hyrum Pingree, (R), 351; H. H. Goddard, (D), 63.
Second Ward—W. H. Williams, (D), 755; H. G. Adams, (R), 327.
Third Ward—Asael Farr, (D), 181; H. W. Williams, (D), 327.
Fourth Ward—Dr. C. E. Coulter, (R), 755; H. W. Williams, (D), 327.
Fifth Ward—M. S. Browning, (D), 327; C. N. Nye, (R), 414.
The vote of the Socialist in the city was about 75.

Constipation

Should not be neglected. It leads to more serious troubles. It shows that the important functions of the liver are imperfectly performed. The best medicine to take for it is the mild, gentle and purely vegetable cathartic, Hood's Pills, which act on the liver and bowels, cure biliousness, constipation, morning and sick headache, break up colds, relieve uncomfortable fullness after dinner.

"SWEATING" MURDER SUSPECTS.

Officers on Still Hunt for Slayer of Officer Clark.

Ogden, Dec. 3.—In the investigation that is being conducted by the officers in the Clark murder case, the authorities are adhering closely to the old motto of "Saying nothing but saying wood." There are a number of clues which they are following and which will probably develop something within a short while. There has not been an hour since the murder happened that there has not been officers and detectives at Utah or immediate locality working on the case.

During the past two days the officers have "sweated" a half a dozen men who either live in Utah or are employed on the power plant in Weber canyon. That the crime was committed by some one living in Utah or employed in the canyon now seems to be a foregone conclusion, and it is with this idea in view that the investigation is being conducted.

Yesterday afternoon the announcement was made that the Union Pacific Railroad company had offered an additional reward of \$200, which now makes a total reward of \$1,200 offered for the arrest and conviction of the assassin or assassins of Seymour L. Clark. From a reliable source it is ascertained that in addition to the railroad detectives, the police and sheriff's force that are working upon the case, that a Pinkerton detective has also been secured by private parties, and he is spending a great amount of time in the vicinity of the scene of the murder.

The numerous clues are being thoroughly investigated, and it only strengthens the belief of the officers that the crime was committed by one who is not a stranger to the district court. When taken into custody by the officers Grant was in a demented condition and after an investigation of his case the officers found that he had escaped from the Nevada institution.

Chief of Police Browning and Sheriff Wilson are at Utah today investigating a clue that looks very promising and from which results of a strong nature will be obtained.

OPIE READ LECTURE.

This evening at the Weber academy auditorium, Opie Read, the well known author and lecturer, will lecture under the auspices of the academy lecture course. It is expected that there will be an unusually large audience present to greet Mr. Read, who has made many friends in Ogden and Weber county upon his former visits.

WANT BETTER LIGHT RATES.

The chamber of commerce of Ogden City and Weber county is working for the reduction of the electric light rates in this community. From the vigorous action of the organization it is apparent that favorable results will be obtained in the near future.

At a recent meeting resolutions were adopted favoring the plan outlined by the city for the construction of a power plant in South Fork canyon, which would furnish power for the city as well as its inhabitants.

At a meeting held last evening, the chamber of commerce employed Attorney Arthur Pratt to investigate the matter as to whether Ogden City has the right to regulate the electric light rates in the city and report back to the next meeting.

President Browne of the organization was given the power to name the dele-

gates to the state meeting of the commercial organizations which meets in Salt Lake City in the near future.

JUNCTION CITY BRIEFS.

Wedding Permit—A marriage license has been issued by the county clerk to Heber C. Gilson of West Weber and Mary A. Bliton of Ogden.

Will Stand Trial for Robbery—C. A. New, who was arrested some months ago upon the charge of robbery and subsequently released on bonds has returned to the city from Colorado accompanied by a brother to stand trial. He maintains that he was drawn into the affair through a misunderstanding and was in no way connected with the robbery.

Football Banquet—The members of the high school football squad will be tendered a banquet by Principal J. O. Cross of the high school at the Reed cafe next Friday evening.

Probate Business—Mrs. Georgia Miller has filed in the probate division of the district court, a petition for the appointment of F. C. Cole as administrator of the estate of Hans Miller, deceased. The estate is valued at \$1,100 and heirs are the petitioner, who is widow of the deceased and seven children. Mrs. Laura D. Stanford has filed a petition for letters of administration in the estate of the late Thomas Y. Stanford.

New Power Plant—R. O. Bybee as chairman of a committee from Utah, is investigating the cost of the construction of a power plant at the mouth of Utah canyon, where it is stated can be secured plenty of water for power purposes.

Goes Back to Hospital—George Moore, head attend of the Nevada mental hospital at Reno, arrived in Ogden yesterday and left in the afternoon with Harold Grant, a former inmate of that institution who was held by the county officials here to appear as a witness in a case. Grant is the boy who was the victim of the statutory crime committed by James Gooding and who was recently found guilty in a district court. When taken into custody by the officers Grant was in a demented condition and after an investigation of his case the officers found that he had escaped from the Nevada institution.

GOOD COUGH MEDICINE FOR CHILDREN.

The season for coughs and colds is now at hand and too much care cannot be used to protect children. A child is much more likely to contract diphtheria or scarlet fever when he has a cold. The quicker his cold is cured, the less the risk. Chamberlain's Cough Remedy is the sole reliance of many mothers, and for these few hours Mrs. F. F. Starcher, of Ripley, W. Va., says: "I have never had anything other than Chamberlain's Cough Remedy for my children and it has always given good satisfaction." This remedy is of pure and other harmless and may be given as confidently to a child as to an adult. For sale by all druggists.

BEWARE OF FREQUENT COLD. A succession of colds or a protracted cold is almost certain to end in chronic catarrh, from which few persons ever wholly recover. Give every cold the attention it deserves and you may avoid this disagreeable disease. How can you cure a cold? Why not try Chamberlain's Cough Remedy? It is highly recommended. Mrs. M. White of Butler, Tenn., says: "Several years ago I was bothered with my throat and lungs. Some one told me of Chamberlain's Cough Remedy. I began using it, and it relieved me at once.
